OBJECTIVE

An ambitious, logic-driven individual seeking a challenging position where I can further my knowledge in the technology field. With a background of ten years in hospitality, I have garnered excellent interpersonal and conflict management skills and understand the importance of teamwork. I am organized, detail-oriented and determined.

HTML
CSS
JavaScript
Bootstrap
Figma
Microsoft Excel
Problem-solving
Leadership

FAMILIAR WITH

SQL
Microsoft Access
Tableau
Python
React
Adobe Photoshop

WORK EXPERIENCE

November 2021 – Present

Administrative Assistant • Florida Fish and Wildlife Conservation Commission

- As an Administrator at FWC, I am responsible for most purchases made by my department. These purchases typically involve creating and managing Purchase Orders through the Ariba-on-Demand system. I also assist with budget tracking and projections, travel reimbursements and employee information upkeep.

April 2018 – October 2021

Assistant General Manager • Flute and Dram

- At Flute and Dram, I began bartending in 2018 and was promptly promoted to a supervisor and finally Assistant General Manager in 2019. During my time, I handled many managerial tasks including tracking sales and deposits, renewal of annual permits and licenses, staff scheduling, staff trainings, liquor inventory and ordering, point-of-sale system updates, event planning, social media management, and menu edits/prints.

PROJECTS

My Portfolio

<https://taylorzewen.com/>

My current portfolio written completely from scratch using HTML, CSS and JavaScript. Includes a responsive design.

Seafood Company Website

<https://tayzewen.github.io/bamasea/>

A clone of Bama Sea Product's website with responsive design, optimized images, cleaner navigation and working Google Maps API.

Tic-Tac-Toe

<https://tayzewen.github.io/tictactoe/>

A JavaScript Tic-Tac-Toe game using DOM manipulation.

Titan Community Bank

<https://tayzewen.github.io/titanCommunityBank/>

A mock bank website demonstrating event handling, form validation, JSON data and local data storage.
